Here, simplifying Medicare

We make Medicare easy to understand, so you can make the most of it.

Parts A and B, or “Original Medicare,” are offered by the government.

PART A HELPS COVER:

- Hospital stays
- Nursing facilities
- Hospice
- Some home health care

PART B HELPS COVER:

- Doctor visits
- Preventive care
- Other medical services

With Original Medicare, you'll pay 20% of all covered costs with no out-of-pocket maximum. With Medicare Advantage, you'll have fixed cost copays with an out-of-pocket maximum. That means once you spend a certain amount of money, your plan will pay 100% of the cost of services it covers... so you could have significant savings.

Part C, or “Medicare Advantage,” is provided by health insurance companies (like HAP).

For your convenience, we offer all the coverage you can expect from Part A and Part B, plus additional supplemental benefits, such as dental, vision, hearing and much more.

Part D provides coverage for prescription drugs.

It's offered by both a stand-alone package with Original Medicare or as part of a Medicare Advantage plan.

Here, with a \$0 HMO plan

This coverage comes with affordable premiums and copays, so you can easily manage your health care costs.

- \$0 copays for primary care visits with select plans
- \$0 deductibles for all covered prescription drugs
- \$0 copays for Tier 1 preferred generic prescription drugs**

After enrolling in our HMO plan, you'll select a primary care physician from our established network of providers. (Chances are, your current doctor and hospital are already part of it.) They'll partner with you to manage your health and wellness, coordinating all the in-network primary and specialty care you need. Our HAP Provider Directory has more details about which doctors are included in our networks and participate in each plan.***

You may be eligible to enroll if you are entitled to Medicare benefits under Part A, enrolled in Part B and reside in the HAP service area.

* You must continue to pay your Medicare Part B premium.

** \$0 copay applies for Tier 1 preferred generic prescriptions from preferred pharmacies only. A \$6 copay will apply if a non-preferred pharmacy is used. Visit hap.org/medicare for a list of our preferred pharmacies.

*** The pharmacy network and/or provider networks may change at any time. You will receive notice when necessary.

Save on Your Prescriptions

Medicare Advantage Part D Prescription Drug Coverage

With HAP prescription drug coverage, our goal is to make sure you get the highest quality medications at the lowest possible cost. We help make it easy with services like home delivery, medication management and easy online access to prescription information.

Savings at Preferred Pharmacies

During the initial coverage phase of your Part D benefit, HAP's preferred pharmacies offer lower copays. Prescriptions must be filled at HAP-contracted pharmacies. We have many preferred pharmacies in our network, including large national chains. Pharmacies will be listed as either "preferred" or "standard" in HAP's pharmacy directory. To find a pharmacy, go to hap.org/medicare/member-resources/hap-network or call the customer service number on your member ID card.

Part D Coverage Stages

Each year, you have four stages of coverage under Medicare Part D. These stages are set by Medicare. Which stage you are in depends on how much you have paid for your prescriptions.

Stage	Begins	Your drug costs	Ends
Stage 1 Yearly deductible	HAP Medicare Advantage plans have no deductible, so you won't begin in this stage.		
Stage 2 Initial coverage	When you fill your first prescription of the year	You pay a copay or coinsurance, depending on the drug tier and the pharmacy.	You are in this stage until your year-to-date total drug costs (your payments plus any Part D plan's payments) total \$4,430.
Stage 3 Coverage gap or "donut hole"	After you reach total drug costs of \$4,430	During this stage, you pay 25% of the price for brand-name drugs (plus a portion of the dispensing fee) and 25% of the price for generic drugs.	You are in this stage until your year-to-date out-of-pocket costs (your payments) reach a total of \$7,050.
Stage 4 Catastrophic coverage	After your year-to-date out-of-pocket costs reach \$7,050	You are responsible for \$3.95 copay for generic (including brand drugs treated as generic) and a \$9.85 copayment for all other drugs, or 5% of the cost whichever is greater.	Until the end of the year

Drug Tiers

The tier placement of the drug determines how much you'll pay out-of-pocket for your medication.

Part D Senior Savings Model

You can identify Select Insulins by the symbol "SSM" on the drug formulary. You can find the drug formulary at hap.org/medicare/member-resources/prescriptions/formulary-drug-list.

Select Insulins copays apply in the Initial Coverage, and Coverage Gap phases of the Part D benefit.

In Catastrophic phase you pay 5% of the cost of Select Insulins.

Tier	Drug type	Description	Copay level
Tier 1	Preferred generic	Generic drugs with the same active ingredients and strength as brand-name drugs	Lowest copay tier
Tier 2	Generic	Generic drugs not in the preferred generics tier and some brand-name drugs	Higher copay than preferred generic
Tier 3	Preferred brand	This tier contains mostly brand-name drugs and includes some high-cost generic drugs, and also Select Insulins	Preferred drugs with lower copays
Tier 4	Non-Preferred Drugs	Brand-name drugs not in the preferred brand tier and some generic drugs	Higher cost-sharing than preferred drugs
Tier 5	Specialty tier	Used to treat complex and chronic illnesses. They may be injected, infused, inhaled or taken by mouth. They require prior authorization from HAP.	These drugs are high cost and unique. They exceed a monthly cost established by the Centers for Medicare & Medicaid Services.
Tier 6	Select Care Drugs	Select vaccines	Preventive vaccines at \$0 copay until the Catastrophic Phase is reached

Coverage Requirements and Limits

HAP has a list of covered drugs, also known as a formulary. Some covered drugs have requirements or limits. These requirements are listed on the formulary and may include:

- **Prior authorization:** For some drugs, you'll need to get approval from HAP before your prescription is filled.
- **Step therapy:** In some cases, HAP may require you to first try a certain drug to treat your condition before another drug is covered.
- **Quantity limits:** Certain drugs have quantity limits.

You can find the Medicare formulary and coverage information at:

These are your rights with respect to your member information. If you would like to exercise any of these rights, contact us as described in the "Who to Contact" section at the end of this document.

- **You have the right to ask us to restrict how we use or disclose your PHI for treatment, payment or health care operations.** You also have the right to ask us to restrict PHI that we've been asked to give to family members or to others who are involved in your health care or payment for your health care. We are not required to agree to these additional restrictions. But if we do, we'll abide by them – except as needed for emergency treatment or as required by law – unless we notify you that we are terminating our agreement.
- **You have the right to ask that we send communications with PHI confidentially.** If you believe that you would be harmed if we send your PHI to your current mailing address (for example, in situations involving domestic disputes or violence), you can ask us to send the information by alternate means. We can send it by fax or to an alternate address. We will try to accommodate reasonable requests.
- **You have the right to inspect and obtain a copy of PHI that we maintain about you.** With certain exceptions, you have the right to look at or receive a copy of your PHI contained in the group of records used by or for us to make decisions about you. This includes our enrollment, payment, claims adjudication and case or medical management notes. If we deny your request for access, we'll tell you the basis for our decision and whether you have a right to further review. We may require you to complete a form to obtain this information and may charge you a fee for copies. We'll inform you in advance of any fee and provide you with an opportunity to withdraw or modify your request.
- **If you request and are given access to a set of records with PHI, you have the right to ask us to amend the PHI.** If we deny your request to amend them, we'll provide you with a written explanation. If you disagree, you may have a statement of your disagreement placed in our records. If we accept your request to amend the information, we'll make reasonable efforts to inform others of the amendment, including individuals you name. We require that the information you provide is accurate. We are unable to delete any part of a legal record, such as a claim submitted by your doctor.

- **Your first accounting in any 12-month period is free.** However, if you request an additional accounting within 12 months of receiving your free accounting, we may charge you a fee. We'll inform you in advance of the fee and provide you with an opportunity to withdraw or modify your request.
- **You have the right to be informed of any data breaches that compromise your PHI.** In the event of a breach of your unsecured PHI, we'll provide you with notification of such a breach as required by law or in cases in which we deem it appropriate.

Your request to exercise these member rights may require a written request.
