Dear Medicare Member,

Thank you for being a part of our Blue Cross & Blue Shield of Rhode Island (BCBSRI) family. We are reaching out with important information about changes to your Medicare Part B benefit through your BCBSRI Medicare Advantage plan. These changes may lower your Part B drug costs due to the Inflation Reduction Act.

Starting April 1, 2023, certain Part B drugs may be subject to a lower coinsurance. This means that the coinsurance you pay for some Part B drugs may be less than what is listed in your Evidence of Coverage (EOC). This amount may vary depending on the drug and when you fill the prescription, but will never exceed the coinsurance listed in your EOC.

Also, starting July 1, 2023, you will pay no more than $35 for a one-month supply of Part B insulin, such as insulin administered via a pump. The $35 limit applies to the insulin itself, not the pump or pump supplies. This change is in addition to the $35 Part D insulin cap which was implemented in January 2023. If your plan includes the Insulin Savings Program, you may already have an insulin cost share less than $35 per one-month supply.

You do not need to take any action. These benefits will automatically begin on the dates noted above.

If you have any questions, please call the Medicare Concierge team at (401) 277-2958 or 1-800-267-0439 (TTY:711). Hours are Monday through Friday, 8:00 a.m. to 8:00 p.m.; Saturday, 8:00 a.m. to noon. (Open seven days a week, 8:00 a.m. to 8:00 p.m., October 1 – March 31.) You can use our automated answering system outside of these hours. The Medicare Concierge team also has free language interpreter services available for non-English speakers.

As always, thank you for putting your trust in us.

Sincerely,

Michael Menard
Vice President, Medicare
